Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

OFFICE ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-48 are rejected under 35 U.S.C. 102(b) as being anticipated by JP60187073.

With respect to claims 1-2, Fig.2 shows a gas discharge chamber 11 comprising an interior wall comprising a vertical wall and an adjacent bottom wall; a gas circulation fan 19 creating a gas flow path adjacent the interior vertical wall and the adjacent bottom wall; an in-chamber dust trap 23 positioned a region of low gas flow.

With respect to claims 3-16, Fig.2 discloses the dust trap comprises a plurality of meshed screens (filters).

With respect to claims 17-48, Fig.2 shows the dust trap extends along the bottom interior wall and a vertical portion of the interior wall.

Allowable Subject Matter

Claims 49-64 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The above prior art fails to disclose the limitations as recited in the claims.

Response to Arguments

Applicant's arguments filed on 10/17/07 have been fully considered but they are not persuasive.

Applicant argued that JP60197073 does not show or suggest the low gas flow regions being in pockets formed between the main insulator and the top half of the chamber. The examiner does not agree because the above limitations are not recited in the independent claim 1.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

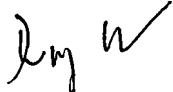

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
